## VOLTAGE RAMP GENERATOR AND CURRENT RAMP GENERATOR INCLUDING SUCH A GENERATOR

## Abstract of the Disclosure

A voltage ramp generator includes a capacitance and a charging circuit that permits generation of a charging current for the capacitance. The charging circuit for the capacitance includes a current generator having a resistance Rg2. The charging circuit for the capacitance includes components, such as resistance Re, that enables the capacitance charging current to be proportional to (Re/Rg2)<sup>2</sup>. The voltage ramp generator is applicable to circuits for DC voltage converters operating in a current mode.
